

SYSTEMS AND METHODS FOR FACILITATING THE
PRESENTATION OF INVENTORY ITEMS

5

ABSTRACT OF THE DISCLOSURE

The invention provides systems, structures and methods which facilitate the display of inventory items. In one exemplary embodiment, the invention provides a system which comprises a plurality of separate stores. An elongate wall separates each of the stores. Additionally, each wall is provided with a doorway, with the doorways of each wall being aligned with each other. An aisle passes through each doorway such that a customer may visualize at least some of the interior of each store while standing in the aisle and looking down the aisle.
